

Unlock Car Doors... Easy, Fast, & Damage-Free!

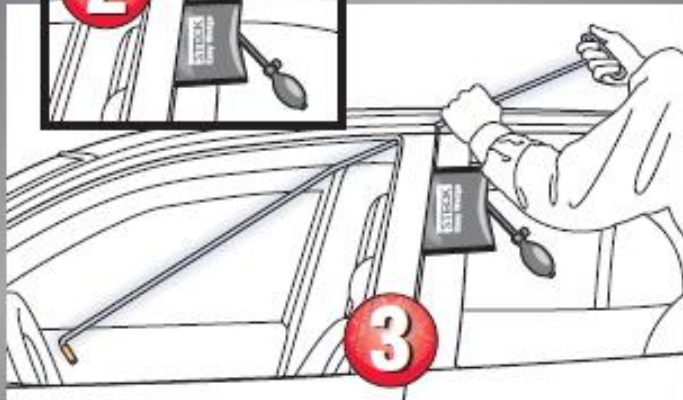

BigEasy™

Car/Truck
Lockout Tool Kit

No Training Needed... Simple as 1-2-3!

Insert starter wedge.

Insert and inflate
EasyWedge to
create opening for
BigEasy insertion.

Actuate lock button, electric locks, or door
handle with BigEasy to unlock.

- There's no risk of vehicle damage! Since no tools are inserted into door panels, there is no risk of disconnecting linkages or wiring.
- Emergency unlocking is easy and fast. It's not a complex task. There is no guess work. Every step is simple. And with every movement in full view, cars and trucks are easy to unlock.
- Rescue stranded motorists...and quickly get inside cars in an emergency!
- Increase the level of your positive and favorable community relations!
- All these benefits...for about HALF THE COST of other lockout tools!

"Since we began using the BigEasy, the problems incurred with other tools are a thing of the past."

- Loretta Nichols, Enforcement Supervisor
Kent State University, Kent, Ohio

What people are saying about our BigEasy™ tools...

"I was so impressed with the speed and safety of the BigEasy that I recommended it to our department for every patrol car. Now, we all have one!"

- Greg Gentry
Enon Police Department
Enon, Ohio

"We have used your BigEasy for over a year. It is the BEST! We are the ski area where the Olympic downhill races were held. We get a lot of people and some lock their keys in their cars (3-5 cars, trucks or vans per day). Could you please send us a price sheet and brochure? We would like to put one in each of our security trucks."

- Ed Edmonson
Director of Security
Snowbasin Ski Resort
Huntsville, Utah

"Kent State University, Parking Services would like to sincerely thank you for sending the rubber tip replacements for the BigEasy Lockout Tools.

These tools are used extensively in our Motorist Assist Program, and due to the large volume of student requests, they have proven to be very reliable and successful even when attempting to unlock the most difficult vehicles. Since we began using the BigEasy, the problems incurred with other tools are a thing of the past.

Thanks again!"

- Loretta Nichols
Enforcement Supervisor
Kent State University
Kent, Ohio

"A few months ago, I purchased some of your lockout tools to update my set. Among these is your BigEasy tool. Thank you for the OUTSTANDING item! Today, 4 out of 5 lockouts are solved with the BigEasy. It is the one tool I cannot do without!"

- Fred Tate
Fred's Repair
Jerome, Iowa

"It's the BEST lockout tool!"

- William Johnson
West Director
MA Towing Association

Standard BigEasy™ Lockout Tool Kit

Kit Part #32911...\$59.95

BigEasy Unlocking Tool

The slim profile of the steel BigEasy tool only requires a small opening. It is easily maneuvered to activate lock button, electric lock, or door handle.

Non-Marring Door Wedge

Creates a slight opening between the door and body, making room to insert the EasyWedge inflatable.

EasyWedge Inflatable

Hand pump enables you to fill the EasyWedge with enough air to create an opening wide enough to insert the BigEasy tool.

SureGrip Lock Knob Lifter

Grips and lifts vertical lock knobs located on the window frame.

Paint Protector

Reduces friction between the car door and the BigEasy so the powder coating does not rub off.

Part #32935...\$29.95

Optional carrying case provides convenient storage for the BigEasy tool kit.

*Sold Separately. Not included with Kit Part #32911.
