Two-Way Headsets

Acoustic Tube with Palm Mic (TAT Series)

Acoustic Tube with Palm Mic (AT Series)

Mini-Boom Headset (MB Series)

Long Boom Headset (LB Series)

Dangle Mic Headset (DM Series)

Ear Bone Mic Headset (EBM Series)

Shoulder Mics

MIC100 with cable

Replacement cable

Replacement mic head

Mic Carrier (C Series Shoulder Mic Carriers)

Mic Carrier

Mic Carrier

Shoulder mic carrier attaches shoulder mic head to shirt epaulet for customized fit. Sturdy nylon or leather strap with metal ring attaches to clothing clip on back of mic head. Heavy gauge snaps secure strap to shirt's epaulet.

Finger Ring PTT (AKA Thumb PTT; Thumb Actuator)

EarHugger Finger Ring PTT

Many headset users find the finger ring PTT to be the most practical and comfortable way to key their mic while suited up in fire or tactical gear. All EHS two-way headsets have a 2.5mm jack on their inline PTT. This makes the EHS finger ring PTT compatible with all EarHugger two-way headsets.
