

SECURE YOUR FIREARMS!

LIFE JACKET

LOCKING FIREARM SAFETY CASE

TM

LJ1 Life Jacket **Polycarbonate Protection for** **your Pistol or Revolver**

Lock your semi-auto handgun or medium frame revolver in a tough, light weight, portable, polycarbonate shell.

LJ2 Life Jacket **Full Metal Jacket for Pistols and Revolvers**

LJ2 Life Jacket is choice for law enforcement, security agencies, and gun enthusiasts. Steel casing covers the action and trigger guard and when mounted properly it becomes a virtual gun safe, without the bulky size yet allows you the quick access you need, when you need it.

*Passed the California mandated USTL Drop Test**

For additional details on California approved firearms safety devices visit: <http://www.caag.state.ca.us>

LJ3 Life Jacket **Secure Your Pump / Auto Shotguns**

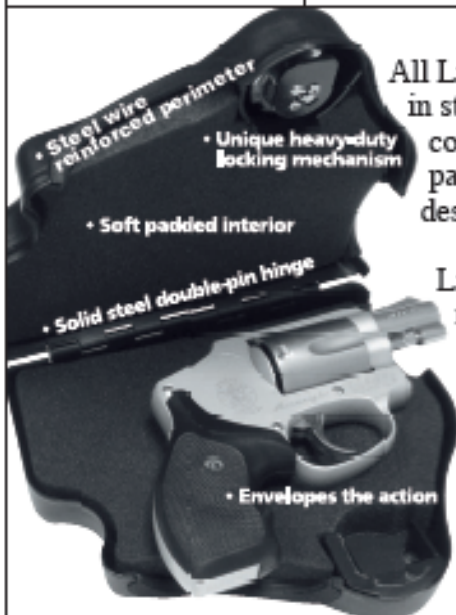

LJ3 Life Jacket features a specially designed chamber lock that plugs right into the chamber of your Pump/Auto Shotguns eliminating accidental firing.

LJ4 Life Jacket **Nothing in the World Protects** **Your AR15/M16 Rifles Better**

LJ4 Life Jacket features dual locks that provided added security to your AR15 and M16 rifle. The high-strength polycarbonate makes the LJ4 virtually impenetrable.

Note: LJ4 does not accommodate optics.

All LifeJacket products provide the highest level of security for your firearm while in storage or during transportation. No other safety device combines full action coverage with the convenience of portability. Each is manufactured with soft padded interior, solid steel double pin hinges, and heavy-duty locking mechanisms designed to impede the most tortuous intrusion attempts, blocking trigger access.

LifeJacket handgun models fit most semi-automatic pistols and medium frame revolvers. Perfect for automobiles, air travel, home or no carry areas when you need to secure your weapon and leave it before entering.
