

Restraints

RESTRAINING DEVICES

Double Cuff™

The Double Cuff™ disposable restraint features 2 individual cuffs rather than the standard single cuff. This gives an officer greater control during subject cuffing, as well as the ability to stabilize a suspect after one cuff is placed on that suspect's wrist/forearm or ankles.

- Double Cuff™ can be used on both wrists and ankles
- ½ inch (1.27 cm) wide plastic strip ensures it won't cut into subjects skin, and gives room to write (on white only)
- Tensile strength of over 350 pounds
- Compact size make it easy to carry
- Double Cuff color coding:
 - White – Write down arrest information or other necessary data
 - Black - Tactical operations
 - Red – Training (does not lock)

Compact Double Cuff™

The Compact Double Cuff™ has all the benefits of the larger Double Cuff™, in a more compact size. This can provide a criminal justice officer with a responsive "back-up" restraint to traditional metal handcuffs. Also available in white, black, or red trainer.

Spare Cuff™

The Spare Cuff™ features a standard single cuff that can be applied to crossed wrists to control a subject's wrists.

- Standard length is 22 inches (55.88 cm)
- Compact size makes it easy carry is (2 3/8 inches; 6.03 cm)
- ½-inch (1.27 cm) wide plastic strip ensures it won't cut into subjects skin, and gives room to write
- Controls both hands and feet
- Available in white or black

Compact Spare Cuff™

The Compact Spare Cuff™ has all the benefits of the larger Spare Cuff™, in a more compact size. This can provide the criminal justice officer with a responsive "back-up" restraint. Also available in white or black.

Safety Cutter™

The Safety Cutter™ provides lever action for smooth cutting of the Double Cuff™ or Spare Cuff™, as well as most other disposable plastic restraints. It's simple to operate; just one simple squeeze of your hand quickly and safely removes a disposable restraint from a subject's wrists or ankles.

- Pocket-sized for easy carry
- Simple and safe operation—great for tight spaces
- Both right- and left-handed people can use it effectively
- Unique design of safety "Break Point" assures the cutter blade can never be used as a weapon.
- Sharp enough to cut most vehicle seat belts in an emergency
- Can be use to double lock a disposable cuff by quickly trimming off any excess material away from the locking head

The AutoLock® Baton is ready when you are by utilizing a revolutionary cam and ball bearing action. Its exclusive patented built-in safety features make it easy to access, open, control and hold on to. Once opened, it stays locked open until you're ready to collapse it by pushing a single button, one time. Compact and comfortable to wear, AutoLock® Baton is designed to be carried with you at all times. These batons can be used with virtually all standard baton techniques and tactics or training programs. All Monadnock® products, AutoLock® Batons carry a lifetime repair or replacement guarantee.

SUPER GRIP® AND FOAM GRIP

AVAILABLE TIPS

SAFETY TIP®, POWER SAFETY TIP® AND 3XT POWER SAFETY TIP

AVAILABLE FINISHES

Black Chrome Bright Nickel

The new AutoLock® Defender protects your gun hand from hostile strikes with a guard that fits over your knuckles. The guard helps keep the baton firmly in your grip during blocking, striking and jabbing techniques. The AutoLock Defender locks open until you decide to collapse it with the push of a button. It is easy to access and open with either a flick of your wrist or a simple pull to achieve a passive draw. Like all Monadnock products, the AutoLock Defender carries a lifetime repair or replacement guarantee.

AutoLock® Defender

Available Sizes

16" (40.64 cm), 18" (45.72 cm), 21" (53.34 cm), 22" (60.96 cm) and 26" (66.04 cm)

Available Tips

Safety Tip®, Power Safety Tip® and 3xT Power Safety Tip

Available Finishes

Black Chrome

The AutoLock® Jr. operates just like any other AutoLock® baton, but only in miniature. This baton is great for personal protection whether in law enforcement, corrections or in any setting where concealment is a primary requirement for personnel; such as a bodyguard, bails bondsman, investigator, private detective, airport or private security. It is an effective tool when utilized for self-defense.

Positive Lock: MX Series

The MX expandable batons feature a 1" (2.54 cm) polycarbonate shaft housed in an anodized aluminum with your choice knurled or foam grip. Positive Lock Batons are lightweight, all aluminum expandable batons. They use a push button mechanism that keeps them from collapsing until you need them to. This also eliminates the awkward closing procedure associated with most Friction Lock Batons. These batons can be used with virtually all standard baton techniques and tactics or training programs.

MX-21 Foam Grip

Available Sizes

18" (45.72 cm), 21" (53.34 cm), 24" (60.96 cm) and 24" (60.96 cm)/36" (91.44 cm) riot baton

Available Grips

Foam Grip and Knurled
