FIRE FIGHTER +

An NFPA 1971 current edition glove with gold top grain elk skin back and a black Eversoft split cowhide leather palm, soft elk for dexterity with cowhide for durability. A wing thumb design with seamless index finger for maximum comfort with a Kevlar cuff. Eversoft leather is tanned with silicone for added water resistance. Glove also has a SENTINEL bloodborne pathogen barrier and a modacrylic line.

FIRE FIGHTER

The most popular glove in USA. Top grain elkskin leather back and reverse grain elk skin palm, gunn cut, wing thumb. Elk leather is very soft and remains soft after washing. Glove also has a SENTINEL breathable modacrylic liner and exceeds NFPA 1971 current edition.

FIREMAN I

Fed Osha Cal Osha compliant, gold split leather cowhide, gunn cut, wing thumb. The back has an elastic snugger band in the wrist area for secure fit. Leather welting is sewn on palm side of the two middle fingers for additional support. A leather patch is sewn in the thumb crotch area to improve wear. A modacrylic liner for increased thermal protection.

FIREMAN V

Exceeds NFPA 1971-2007 and CAL OSHA current versions. Gray Eversoft cowhide leather, gunn cut, straight thumb glove. A polyurethane bloodborne pathogen barrier with a modacrylic thermal liner to increase thermal protection. This glove is ideal for training.
