

QUIQLITE FOR LAW ENFORCEMENT

How many times have you dropped your flashlight while reading, writing or maneuvering in the dark?

QuiqLite is the worlds only hands free concealed LED light source designed for public safety professionals. QuiqLite allows you the freedom of not having to hold your flashlight in the palm of your hand, under your arm or between your cheek and shoulder while reading, writing or maneuvering in the dark!

QuiqLite is low profile, light weight and easy to use:

Simply attach QuiqLite under the lapel of your uniform shirt pocket or Molle webbing loops of your tactical vest. With the push of a button you have hands free light!

Tactical hand held flashlights produce too much light for reading and writing:

QuiqLite is designed to help preserve your night vision, giving you the tactical advantage. Keep your tactical flashlight on your belt, ready to use for its intended tactical purpose. Use QuiqLite for everything else. QuiqLite features a 160⁰ adjustable light arm, allowing you to set your perfect lighting angle. QuiqLite has a 10 minute auto-off battery saving timer and continuous Safety Strobe feature. QuiqLite products now include the New “QuiqFlare” attachment, allowing you to be seen up to 1.5 miles away and New Pupil Gauge!

Applications:

- **Reading and Writing**
- **Maneuvering in the dark**
- **Marking road side hazards**
- **Safety/location beacon**
- **And many more**

QuiqLite LED Lights

QuiqLite is low profile, light weight and easy to use. Simply attach QuiqLite products under the lapel of your uniform shirt pocket or Molle webbing loops of your tactical vest. With the push of a button you have hands free light. QuiqLite products give you the freedom of not having to hold your flashlight in your hand or under your arm while reading, writing or maneuvering in the dark.

QUIQLITEX₂
RECHARGEABLE

The newest addition to the QuiqLite family the rechargeable QuiqLiteX2 is made from aircraft aluminum, designed to withstand an assortment of punishment. The QuiqLiteX2 provides from 20 up to 200 lumens of light on demand. The extra wide flood light arm gives you freedom to direct light where you need it most.

Available in two options: the QX2 Tactical Red/White LED comes with both red and white LED modes, and the NEW QX2 WhiteLite all white LED light only features the red LED light with the safety strobe mode.

QUIQLITEX
RECHARGEABLE

The QuiqLiteX2 baby brother QuiqLiteX is USB rechargeable and comes in 4 different models from Dual White LED (20-150 Lumens), to color LED options for tactical, medical, and UV light operation. Each QuiqLiteX comes with an X-Boost button for increasing the white LED.

The QuiqLitePro comes in 4 different models from Dual White LED (10-20 Lumens), to color LED options for tactical, medical, and UV light operation. Each QuiqLitePro comes with 3 modes including white LED, safety strobe, and color LED light on specific models.

QUIQLITE PRO

The QuiqLiteMED LED was designed specifically for those in the medical field. Seamlessly fitting with your medical uniform, the QuiqLiteMED clips easily, allowing light to shine where you need it most.
